THE PUNISHMENT TOO LIGHT.

A fine of \$250 and costs was the ridiculously inadequate punishment inflicted upon CHARLES PIEIFFEE, who, by careless shooting, killed a babe in its mother's arms in North Bergen, N. J., a few weeks ago. The Judge explained his extraordinary leniency by stating that the parents of the murdered | destinies of the nation in her hand. child had interceded in the prisoner's behalf.

While it was a remarkable exhibition of a forgiving disposition on the part of the afflicted parties to plead Prenyra's cause. yet their mistaken sympathy should not have won for the careless handler of firearms. practically, unmunity for his cruas.

The killing of the baby was a crime against the public safety, and not merely a cause of grief to its mother and father. The deadly fundlade of the fool with a gun is too common an occurrence. He should be dealt with vigorously when in the cutches of the law.

But it is too early yet to indulge in much gratulation. We prefer to await developments. It seems too much to hope that the city's interests ! shall gain any great consideration when there so many local statesmen with axes to wrind.

MR. SMITH'S OPPORTUNITY.

In the course of his testimony before the Referee in the so-called KEMMLER case, one SMITH swore that he had received without injury, an electrical shock of 1,500 volts. This was considered quite a clincher by the Westinghouse people-the other name for KENNER-and upon that statement Counsellor Cocknan greatly plumed himself.

But now comes Edison, the great inventor, who offers the party by the name of SMITH a crisp one-hundred-dollar bill if he will visit the laboratory of Edison and successfully withstand a shock of 100 volts. Politics and Sugar Trust Make a Strong Combination.

The managers of the Sugar Trust have a peculiar way of transacting business and an idea of justice that is still more pecular. It would be supposed that they would be satisfied with the enormous profits unlawfully obtained 'y means of their combine. But from their usual method of doing business it does not appear that they would besitate at curtailing the Government's charges if such a thing were pos-ible. There was considerable surprise yesterday

when it became known that three more of the officials removed by Secretary Fairchild last Spring had been reinstated. They are Abraban G. Remsen Peter Twamley and Isaac

Cole sugar samplers.

These reinstatements are looked upon as all the more surprising in view of the fact that Assistant Sec. ca y of the Treasury Tichenor, then Treasury Agent, was one of the sgents the result of whose investigations convin ed Secretary Fairchild that these men should be removed.

County."

J. S. McFlwee, the Sugar Examiner-in-Chief, who was placed in charge of the sugar room when some of the removas were made, will probably be reduced, now that Mr. Remsen has been remstated.

The Sugar tyng appears to have a feeling against Vellwee, because he gave cer ain information which brought about a change
